Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Wednesday 07 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
A cold evening but increasing cloud overnight. Showers for Thursday.

This Evening and Tonight:
A dry evening with clear spells. Turning cold, with a patchy frost developing. However, cloud will increase from the west later in the night with the risk of some patchy light rain developing as we head towards dawn. Minimum temperature 0 deg C (32 deg F).

Thursday:
A cloudy morning with some patchy light rain possible, mainly in the north. A little brighter for the afternoon, but a few showers may develop. Rather mild but breezy. Maximum temperature 11 deg C (52 deg F).

Outlook for Friday to Sunday:
For Friday a band of rain moving south through the day and turning drier overnight. Wintry showers for Saturday and Sunday. Feeling cold throughout with overnight frost possible.
